

Open days for disabled drivers

Tuesday, 02 March 2010

MOTABILITY Ireland Ltd was established in 1999 by Malachy McElmeel.

Based in Ashbourne County Meath, Motability Ireland manufactures car adaptations to assist disabled drivers and passengers.

The two most common of these adaptations would be hand controls for disabled drivers and swivel seats for disabled passengers but the list of adaptations available is endless.

The company has also grown to be the leading supplier of wheelchair accessible cars for disabled passengers. Whether you are in the market for a new wheelchair accessible car or a pre owned one, Motability Ireland has the vehicle in stock and offer free home demonstrations.

Motability Ireland is also the country's specialist in Drive from Wheelchair Vehicles to give wheelchair confined drivers complete independence.

An exciting progression within Motability Ireland was the launch of their adapted vehicle hire service.

You can now hire a wheelchair accessible vehicle to accommodate a wheelchair confined passenger or an automatic car fitted with adaptations to accommodate a disabled driver.

Motability Ireland will be showcasing all car adaptations available to both disabled drivers and passengers at their Open Days on Friday 12 and Saturday 13 of March from 10am – 4pm both days at their showroom in Ashbourne, County Meath.

There will also be a massive sale of wheelchair accessible cars from as little as €5,000.

Motability Ireland will also have an exhibition of the latest drive from wheelchair cars and household aids. Full information on Government grants and tax breaks will also be provided.

This special two day event is not to be missed for all interested parties. Tel 8359173 and speak to Jonathan Moore for further details.
